

Preschool here I come!

Learn. Share. Laugh. Grow.

The Tuscarawas Valley Community is dedicated to preparing children to be school ready. There are a number of preschool programs in the Tusky Valley District boundaries that offer services for your children. Research has shown that children who attend high-quality preschools enter kindergarten with better pre-reading skills (letter names and sounds), richer vocabulary, and stronger basic math skills (colors, shapes, number identification and counting) than those who do not. Other benefits of preschool are the exposure to social environments (getting along with others, sharing and contributing to a lesson), exposure to gross and fine motor skills, independence and stronger confidence. Below is a list of the programs available within the district boundaries that can assist our your children in learning and exploration.

	Age Requirement	Class Schedule	Student Population	Childcare Availability	Cost	Contact Information
